Dear Colleagues,

On behalf of the Translational Research Cancer Centers Consortium (TRCCC), we are inviting you to participate in the 2025 annual meeting at the Seven Springs Mountain Resort in Pennsylvania. TRCCC is a consortium of 13 prominent Cancer Research Institutions with a focus on developing the science and scientists for Tumor Immunology and Immunotherapy. In the 2025 meeting, we will review our research and clinical achievements in “The New Era of Cancer Immunotherapy” Plenary lectures by experts and the oral and poster presentations by the trainees are the staples of our meeting. New this year will be the “Whiteboard Discussion” to interrogate critical scientific subjects by leading investigators.

Our meeting participants are a combination of lab and clinical investigators, pre- and post-doc trainees, sponsors, and advocates from the Mid-Atlantic and Great Lake region who are dedicated to the prevention and elimination of cancer. Hosted by Boris Pasche, Director of Karmanos Comprehensive Cancer Center (CCC), and organized by Wei-Zen Wei and Heather Gibson, the meeting features plenary speakers Drew Pardoll, Kelvin Lee, Alan Hutson, Dario Vignali, John Wherry and Anda Vlad (Flyer attached).
